- S. Mingolo, V. Prpic, A. Mariconda, E. Bilotta, T. Agostini, & M. Murgia:**  
*The influence of order in the SNARC effect is revealed by context and task demands: the case of the mobile phone keypad*
- O. Daneyko, D. Zavagno, & N. Stucchi:**

*The Poggendorff illusion in Ruben's Descent from the Cross: Does the illusion ever matter*

13:00 Lunch break

15:00 **Symposium: *Spatial associations for numerical and non-numerical stimuli: novel evidence and future perspectives*** (part 1) – Room: U4-2

**Organized by V.Prpic and M.Murgia**

**V. Prpic, Y.A. Basamh, J. Sargent-Walker, C.M. Goodridge, T. Agostini, & M. Murgia**

*Spatial representation of symbolic and non-symbolic numerals*

**M. Murgia, S. Mingolo, A. Mariconda, E. Bilotta, V. Prpic, & T. Agostini**

*How salient should a context be to modulate spatial-numerical associations? A revisit of Bächtold et al.'s (1998) clock-face*

**M. Vicovaro, R. Boscarol, & M. Dalmaso**

*Evidence of a SNARC-like effect for visual speed*

16:00 Coffee break and odd numbers Poster session

17:00 **Symposium: *Spatial associations for numerical and non-numerical stimuli: novel evidence and future perspectives*** (part 2) – Room: U4-2

Room: U4-2

**Organized by V.Prpic and M.Murgia**

**M. Dalmaso, S. Pileggi, & M. Vicovaro**

*Face age is mapped onto the horizontal, sagittal, and vertical axes*

**D. Domijan & V. Topić**

*Horizontal and vertical space-time associations: Evidence from a go/no-go task*

**M. Arioli, V. Macchi Cassia, N. Shirai, M. Kobayashi, H. Bulf, & K.M. Yamaguchi**

*Spatial biases in infants' learning of serial order: cross-cultural evidence for the role of experience*

## Wednesday Sept. 7

10:00 **Keynote speaker for Croatia – Room: Luisella Sironi U4-8**  
**Prof. Mladenka Tkalčić**

***Brain–gut miscommunication: Irritable bowel syndrome***

11:00 Coffee break

11:30 Morning talks – Room: U4-2

Chair: Daniele Zavagno

**G. Lazzari, C. Lega, S. La Rocca, L. Ronconi, & R. Daini**

*Investigating the role of the dorsal fronto-parietal attention network in the center-surround profile of the attentional focus: A Transcranial Magnetic Stimulation (TMS) study*

**L. Juras, M. Martincevic, A. Vranic, & B. Rebernjak**

*Cultural adaptation and psychometric evaluation of two abbreviated forms of the Everyday Problems Test*

**C. Nagy-Tószegi & B. Lábadi**

*The effects of executive functions on the development of sensorimotor performance among preschool children. Is there a bidirectionality?*

**D. Zavagno, F. Frisco, O. Daneyko, & A. Maravita**

*The influence of arm posture on the Uznadze size-contrast haptic aftereffect*

13:00 Lunch break

15:00 Afternoon talks (session 1) – Room: U4-2

Chair: Rossana Actis Grosso
